

CAREER STARTER

Build Your Talent Pipeline

Build your talent pipeline with CareerStarter.
Finding entry-level talent just got easier.
This FREE tool helps you fill your open
positions with the best candidates.

Get Started

➤ Create an Account

Sign up with your username, email and password. Then, you will be prompted to create your company profile by filling out your company's information.

Scan to create
your account

➤ Account Management

The system will automatically build your company profile and link your member account so you are the account manager. As an account manager, you can edit your company page, post training and job opportunities and connect with potential candidates.

Final Steps

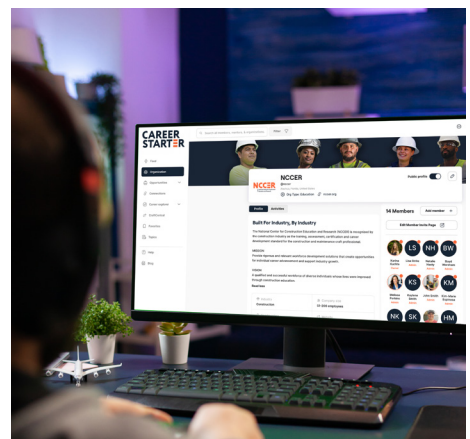

- If your company website has a careers page, CareerStarter will automatically pull those jobs onto the platform.
- Manage applicants with your own HRIS system—CareerStarter sends candidates straight to your job listings.
- If you don't have a careers page, you can manually post your jobs.

Now, job seekers can easily apply to your open positions!

Why CareerStarter?

This free resource offers many benefits to assist you in finding the right candidates to help your company grow. With CareerStarter, you can:

- Post entry-level job openings, expand into new markets and build your talent pipeline.
- Browse resumes to find entry-level craft professionals.
- Connect with candidates and local career and technical education programs.

Contact Us

If you would like a demo of the platform, you can visit <https://byf.is/csdemo> to schedule time with Karina Kuchta, CareerStarter program manager kkuchta@nccer.org
